TO BE INCREASED.

Iwenty-five Thousand Bollars Spent is Improving the Fire Bepartment in the Past Year.

something inexcusable. The court, in making appropriations for bridges, names a certain amount, over which the commissioners cannot go in having the work done. This figure is pretty well known by the contractors in the district, who, in order to make all they can, to be friendly, to live and let live, pool their issues and when the time is closed but one bid is found, that at the highest notch fixed by the court. On this account bridges which could be built or repaired for \$100 often cost \$200. Enormous for \$100 often cost \$200. Enormous amounts are spent in this way. The Big Creek District, the most expensive in the county, has cost very nearly \$100,000 in the last ten years. Unsubstantial bridges are the fashion, as they soon give way and Further Legislation.

are the fashion, as they soon give way and make more work for the contractors of the districts. Every little depression in the road, every rivulet or little run dry nearly all the year must have a bridge, the public welfare and the poor contractor, who, nev-ertheless has his vote, demanding it. It is said that thousands of dollars annually are frittered away on little weak struc-tures of one span and some of them very short spans at that. Next-quarter there must be new ones, or repairs or some more

A FATAL LEAP.

DO NOT STORM THE SYSTEM

Running at Rapid Speed. man who returned vesterday APERIENT WHEN THE FIRST SYMPTOM A gentleman who returned yesterday from a visit to Mississippi teports that at Grenada, going south on a through train, a man got on who told the conductor he desired to get off at Madison, the next station north of Jackson. The conductor replied that the train did not stop there, and he must either get off at Jackson or stop this side. The passenger replied that it was absolutely necessary that he should get off at Madison, and avowed his determination to jump unless the train mination to jamp unless the trai stopped. "If you do so, you will surel be killed," was the answer, and the con

ductor passed on to attend to duties. When the train passed the the first being 1000 feet of hose. Two thousand feet have since been purchased. Within the time mentioned the city has purchased two new and improved fire steamers at a cost of \$5000 each, and a Babcock, which, with the house erected for its accommodation on the bluff, cost about \$1500. Two four-wheeled hose-cartion it was going at the rate of th who at once notice the conductor, at the train was stopped and backed to it station, where the obstinate passeng was found lying dead. His identity is u known and he had no papers about I person by which it could be establishe He was a sort of a desperado in apper ance, and that he sustained this charged ance, and that he sustained this char is evident from his resolution to take
